Hon. Wm. Alden Smith will speak in Zeeland Wednesday, October 23.

Portraits of Congressman Smith are once more in order, and adorn many a window of his faithful admirers.

This evening Congressman Smith speaks in Coopersville. Monday afternoon, Nov. 1, he speaks in Olive Centre.

Last Sunday it was 18 years that the steamer Alpena went down in Lake Michigan, and 2 years that the West Michigan furniture factory burned.

Tickets for the Kuyper lecture have been placed on sale with H. A. Kiekijveld, Eighth street, and Jas. A. Brouwer, River street. Price 25 cents.

It has been ascertained by actual measurement that the distance from the court house in Grand Haven to the court house in Muskegon is 13 miles, 2179 feet, and 2 inches.

Predictions as to the kind of winter we are going to have are already coming in. Some hunters say that muskrats are building large and secure winter houses this fall. Hence they predict a severe winter!

Rev. Dr. J. P. Ashley, president of Albion College, will deliver a lecture entitled "Axioms", to-morrow evening, in the M. E. church, for the Epworth League convention which is in session there. The subject is one of unusual interest.

In supplying the senatorial vacancy on the Democratic Silver ticket the committee has complimented our contemporary of the Times by tendering him the nomination for that honorable position. Their ticket now reads: For state senator—Meinardus G. Manting.

The dates and places for the mustering out of the 32nd Reg. Mich. Inf., have been fixed by Capt. Irvine as follows:

Comp. E. G. and H, Grand Rapids, Oct. 25—30.

Comp. F, Grand Haven, Oct. 31.

At the mustering-out an examination of every man will be made and a detailed record of his physical condition placed on file.

Contractor A. J. Ward and a force of men are at work on the new car barn of the trolley line.

The Republicans will close the campaign in this city on Friday evening, Nov. 4, with an address by Congressman Wm. Alden Smith.

For the past few days a terrible sea has been raging on the west shore of Lake Michigan as a result of the prevailing easterly winds.

The number of deaths in Ottawa county during the month of September is 46, of which Holland registers 9 and Grand Haven 5.

To-morrow (Saturday) is positively the last day of John Vandersluijs' cloak sale, all cloaks not sold then are returned, so make your choice at once.

The C. & W. M. beat its record on Friday last, when passenger train No. 3 made the distance from Waverly to Grand Rapids, 24 miles, in 23 minutes.

The Epworth League convention to be held in the M. E. church of this city opens this (Friday) evening with an address by Rev. De La Master, D. D.

The October tea meeting of the A. d. Society of the M. E. church will be held at the home of Mrs. Frank Robinson, No. 129 E. 14th st. on Tuesday Oct. 25, from 2 to 6 p. m. The public is invited.

Adrian Westmaas, who left the city shortly after the big fire of '71, and went on his farm in North Holland, has sold his place there for \$2,900 to M. Nienhuis and will again become a resident here.

Rev. H. Joldersma has been tendered the position of inspector of colonies by the state of Maryland. This state has of late been making strenuous efforts to induce the location of Dutch settlements.

The Ladies Aid Society of Hope church will have another sale next Saturday, Oct. 22, at half past two o'clock, at Botsford's store. Bread, doughnuts, pumpkin pie and Dutch cheese made a specialty.

At the annual meeting of the Farmers Mutual Fire Insurance Co., held in Zeeland, the old officers were re-elected: President, Kasper Janus; vice president, Hiram Van de Bunte; secretary and treasurer, Henry Bosch.

The High School Alumni at its annual meeting on Friday evening elected the following officers: President, Miss Beatrice Kimpson; vice president, Ray Nies; secretary, Miss Lou Markham; treasurer, Bert Winter. It was decided to hold another banquet next summer.

Word was received here this week of the death of the son of architect Wm. K. Johnston of Chicago, who is well known in this city. He was on a visit at Whitby, Ontario, and while out on a bicycle ride in the evening was killed in a collision with other wheelmen. Ralph J. was a promising young man, genial, and liked by everybody, and had reached the age of 17 years. A part of the summer he spent at Macatawa Park on a visit with his father. Mr. Johnston has the deep sympathy of his friends in this city in this grievous loss.

Friday evening, Oct. 14, was the second anniversary of the organization of the Women's Missionary Society of the Third Reformed church, and its observance was made the occasion of a reception to Miss Lizzie Cappon, missionary to China. The program of the evening was as follows:

Prayer—Prof. H. E. Dosker.

Opening address by the President, Mrs. Geo. E. Kollen.

Annual report by the secretary, Miss Jennie Kremers.

Music—Anthem, by the choir.

Address—Miss Helen Cappon.

Remarks by the pastor, Rev. G. H. Dabblak.

Miss Cappon spoke on women's work for women, and gave a descriptive report of the conference of women held in China. In closing she expressed her satisfaction in not being a returned, but a returning missionary. A large audience listened to her and her talk was received with interest. At the close of the program refreshments were served and a social hour was enjoyed by all.

## REPUBLICAN MEETINGS!

### ZEELAND—

Wm. Alden Smith,  
Wednesday, Oct. 26.

### HOLLAND—

Senator Burrows,  
Wednesday, Oct. 26.

Senator Burrows is making an energetic campaign this fall and wherever he is billed to speak he is received by large audiences. In this respect he is an exception to the rule this fall. The line of his argument is that of a statesman, and national questions are expounded from the standpoint of a mature observer.

With resonant voice, polished diction, and an abundance of wit and humor the logical arguments of Senator Burrows are those of a born orator, and a pleasure to listen to.

No doubt the speaker will be greeted with a crowded house.

### HOLLAND—

Wm. Alden Smith,  
Friday, Nov. 4.

These are all Evening Meetings.

"Faust" on Tuesday, Oct. 25.

Reserved seats for "Faust" Monday at 7 a. m.

Rev. H. G. Birchby on Sunday will preach his sixth annual sermon as pastor of Hope church.

Tiemen Slagh has traded his farm in Laketown with Mr. Salm, for two houses on Fourteenth street.

G. J. Diekema left Thursday for Van Buren county, where he will deliver three political speeches this week.

At Grand Haven the diphtheria epidemic is subsiding, and now Muskegon is threatened with a like visitation.

As a matter of additional precaution the banks of this city have taken out insurance policies, protecting them against losses by robbery and burglary.

D. B. Salisbury, for several years bill clerk in the C. & W. M. freight office at this station, has been appointed station agent at Whitehall, and assumed his new duties on the 1st inst. His family will follow later.

With reference to the Zeeland bank robbery there are no new developments. The perpetrators are still at liberty, and there is no clue as to who or where they are. The general impression is that they are safely hidden in Canada.

Henry Kenyon is actively engaged in the cattle business this fall. Last week he bought a hundred head of cattle between Montague and the clay-banks so-called, fifteen miles north of that place. In the course of a few days they will all be shipped from here by rail to Detroit.

The city council of Grand Rapids, on Monday evening, by a vote of 13 to 19, passed the Interurban ordinance so-called. This is the ordinance granting a franchise for the proposed electric line from Grand Rapids to Macatawa Park. As passed however the ordinance is not acceptable to Mr. Wm. T. Hess and his associates, the projectors of the road, it containing a provision that the Interurban road shall terminate at the intersection on Grandville avenue, up to which point the Grand Rapids street car company, known as the Consolidated Company, has been or will be authorized to extend its track. From this point, the ordinance further provides, the Consolidated Co. is to haul the cars of the Interurban over its tracks and charge a five cent return fare for each passenger. What Mr. Hess and his associates wanted was a right of way of their own, to the heart of the city, and thus avoid this five cent additional fare. The grantees are given six months in which to accept the franchise. In the course of the debate it was stated in the council by Mayor Perry that he had been informed by L. G. Mason of Muskegon, that if the grantees named in the ordinance did not want to accept a terminal limitation and exchange, capitalists including Charles H. Hackley, Mr. Mason and others stood ready to build a line from Holland and also from Muskegon.

The Next Congress and Our Interest.

The next congress will be brought face to face with problems of national importance as grave as any that have been presented since the period of reconstruction that followed in the wake of our civil war. While it is true that the nation imposes implicit trust in the wisdom, the firmness and the patriotism of the administration, it is essential that the hands of the executive shall be upheld by a congress that is in sympathy with him. This being conceded, the duty implied thereby comes home to the voters of every congressional district.

For the first time in a period of twenty-eight years, since the palmy days of 1870, when the late Thomas W. Ferry retired from the lower house to take his seat as U. S. senator, a congressman has been renominated in the Fifth district to succeed himself for a third term. This of itself speaks volumes. It implies merit, confidence, and appreciation.

Our present young and talented representative, Wm. Alden Smith, re-

ceived his third nomination at the hands of his party without opposition. The acquiescence in his continuation in office was spontaneous. It was so in his own city, Grand Rapids; it was so here. And why should it not? In Mr. Smith the people of this district recognize the worth of experience in public life and affairs; a close and intimate touch with the administration and an estimable standing with his colleagues; a soundness of view upon the financial problem which still calls for careful consideration and firm action; and a faithful devotion to the minor and local interest of his constituency. As regards this latter he is fortified by a personal popularity in official circles, which often secures favorable consideration for measures pending. He is familiar with the routine of bureau work and department regulations, and adds to all this an industry which is prompted by a sense of duty and rendered double efficient by years of experience.

To the extent that this locality has special interests to advocate Mr. Smith during his four years of service has fully met everything that is claimed for him, and as regards the future our needs are still as pressing and important as they have ever been before. We need not enlarge here upon the urgency of the further improvement of our shipping facilities by the carrying into effect of the new harbor project submitted and approved by the department at Washington. Its execution depends solely and absolutely upon congressional influence and action, and hence a hearty support of Mr. Smith at the next election by the people of Holland, becomes under the circumstances a matter of personal consideration with each voter.

The middle-of-the-road Populists of the Fifth congressional district, at a convention held in Grand Rapids, over which Joseph P. Allen presided, have placed in nomination as their congressional candidate, Thomas Jefferson Hayes.

FRIDAY, October 21.

### OUR NEIGHBORS.

#### Allegan County.

**Gazette:** E. C. Reid was summoned to Ionia Friday morning by a telegram announcing that the boiler at the Michigan asylum for dangerous and criminal insane had exploded, killing two persons. Mr. Reid is one of the trustees of the institution.

During the past four years, forty-three buildings have been erected in Hopkins Station, twenty-two of which were houses, seven business places, one mill, one elevator, and twelve barns.

**Glenn:** The steamer Glenn has been running from this place to Chicago carrying from 7,000 to 13,000 baskets of peaches nightly, and on one occasion the boat took 17,500 baskets.

**Butter:** from the Dorr creamery was entered in the competitive exhibit at the Omaha, Neb., exposition the latter part of September, and was only four points short of the required 100, lacking those four in flavor. There were 119 entries, and only 15 were above 95.

**Aaron Krug** of Hopkins was relieved of \$55 by a pick-pocket while attending the Kalamazoo street fair. George Wise, another citizen of Hopkins, is wiser than he was last week. Some fellow wanted his gold watch and took it while he was viewing the sights at the same free street fair.

The officers of the Allegan county fair are very well pleased with the receipts, the amount reaching nearly \$1,200. All expenses will be paid and possibly the premiums in full.

**Wm. Cushman** of Otsego has a son at Dawson City, Alaska, and last week a letter received from him conveyed the information that he was working in a gold dust repository at a salary of \$500 per month.

**Hog cholera** is raging in Hopkins township. Wm. Iliff has lost thirty-five and John A. Water nineteen. It is stated that the disease has killed over 800 hogs and pigs in Monterey this season.

**County clerk Barrett** has begun to issue deer hunter's licenses, and five have been purchased by would-be deer slayers this season.

**E. P. Arnold** of Hopkins Station has purchased 160 acres of timbered land on section 31, town. He will erect a saw-mill on the property to convert the timber suitable for hoops into shape.

**Supervisor John Lubbers** of Manlius was honored by being elected chairman of the board of supervisors.

**A. H. Estabrook** has been elected superintendent of the poor.

**Judge of Probate Frank Williams** was unanimously re-elected president of the State Association of Probate Judges at the annual meeting in Detroit last week, and was made chairman of a committee to prepare a set of uniform blanks.

Members of the fire department, other citizens of the village, and members of the board of supervisors, eighty-eight in all, enjoyed a banquet at the City hotel last Monday evening, given the firemen in honor of their victory over Otsego in the horse race last week Friday.

**The late Gen. Mix** was instrumental, in 1857, in having a state road constructed from Allegan, via Holland and Muskegon to Traverse City, 135 miles. While engaged in the work of building the road, his force of men mutilated twice because their supply of food gave out, but he pacified them and they returned to work. On one of these occasions they were 108 miles from any house.

**Salem:** Mrs. Mary Goodman, a war widow, has been keeping house for Wm. Healey, and while they were away from home Wednesday of last week some one stole \$600 which Mrs. Goodman had in the house, and two watches. Among the pieces of money was a Prussian coin and on the next day Andrew Vanderbunt, who worked in Salem, attended the county fair at Allegan and was seen to have a Prussian coin like the one stolen. With this clue Sheriff Whitbeck went to work and in two days he had Vanderbunt and had recovered \$585 of the money which the latter had hid in the siding of the house where he lived, in North Monterey. The watches were secured from a lumber pile. He was brought to Allegan and placed in jail, where the sheriff succeeded in getting a confession, with the help of H. J. Klomparsen of Fillmore and the boy's father. Mr. Klomparsen talked with him twice in the Holland language, kindly but firmly, and told him it would be better for him to own up if he was guilty than to stand trial. At the same time, Mr. Klomparsen advised him not to acknowledge the

theft unless he was guilty. Vanderbunt's father gave him the same good advice, and he concluded that would be the better way to do, and admitted the whole business. He has since been sentenced to two years at Ionia.

#### Fennville.

Burglars forced an entrance through the back door of the L. S. Dickinson hardware store Thursday night and carried off knives, razors, revolvers, etc. to the value of about \$25. Tools from the Sherman sawmill were used in prying open the door. Geo. Huff's meat market was opened the same night and 31 cents was taken from the money drawer. Local talent gets the credit.

The M. E. church will be dedicated Oct. 30, provided the indebtedness of \$1,350 is met by subscriptions or otherwise. The pastor has secured pledges to amount of \$1,000, and expects to have the rest by the time the services are to take place.

A party of four from here started for Chicago by the steamer H. W. Williams from South Haven on Friday night of last week and now comes the sequel. Wheelman Sweet was either drunk or asleep, and the boat was left to take any course it might choose. Captain Boyne and Mate Warner were both supposed to be on watch Friday night, but notwithstanding this, at sunrise Saturday morning the boat was lost in midlake, and bearings were only got when the sun arose. The officers admit that when the whereabouts of the boat was ascertained it was somewhere off Sauga u-k or Grand Haven and still going up the lake. The boat was then put on its right course and reached Chicago about noon—eight hours late. It is announced that all the deck crew have been discharged. There was a large load of passengers on board and it makes one shudder to think of the risk that was run.—Herald.

#### Ottawa Station.

Mrs. Brown, who is over 80 years old, is still very low.

James Bush of Grand Rapids is visiting his brother John for a few days. The little son of Bert Velsy, who has been very sick for the past week, is improving.

Miss Verry Fletcher spent Sunday with her sister, Mrs. Frank Smith. Belle Roberts took the Sunday night train for Chicago. He expects to remain about a week.

Miss Ethel and Edith Purchase are visiting their uncle, F. C. Pixley, who is on the sick list.

Frank Smith and Ernst Fletcher have the job of building the road on sec. 35. The work is nearly completed.

Mrs. Hyet of Ganges is spending a few days with her daughter, Mrs. J. Bush.

O. T. Fletcher not only has a wheel but he knows how to ride it. He is something of an expert in this line.

Arthur Headley has bought the apples in C. L. Vaffes orchard. A man from Grand Rapids will be here this week to put them in barrels.

#### Ottawa County.

**Berlin:** The fair was a grand success and favored by beautiful weather. The Berlin schools had a fine display of school work, which attracted much attention.

**Coopersville:** The bank of D. C. Oakes is completed and is a thing of beauty. The interior finishings are modern and the workmanship all of the best. Work is being rapidly pushed on the Odd Fellows new tabernacle. Our village fathers are putting in a large reservoir to furnish water for fire protection.

**Barnard** Prior of Tallmadge sowed 125 acres of wheat this fall.

**Hudsonville:** W. G. Barnaby has secured a position in the checking department of the C. & W. M. at Holland and expects soon to remove his family to that place.

**Blendon:** Douwe Bakius, cousin of the well-known drain commissioner, has committed suicide by hanging. The tragedy occurred Monday forenoon. At about nine o'clock in the morning he was seen at work in a field and shortly after his corpse was discovered suspended by a rope from the limb of a tree in a wood nearby. Mr. B. was of middle age and it is supposed that through excessive use of liquor his mind became deranged and he sought refuge in death. He is from Grand Rapids and came to Blendon but recently. He leaves a wife and seven children in a destitute condition.—Zeeland News.

#### Grand Haven.

The machinery in the match factory is being shipped away.

The other day one of our fish tugs had two white fish in her nets—considered now quite a remarkable haul of that kind of fish. And to think of it that fifteen or twenty years ago Grand Haven was one of the greatest white fish ports on the lakes. It sets one to wondering. Forty years ago the buffalo were so thick on our western plains that it was never thought they would be exterminated. It was so also with our white fish.—Tribune.

#### Saugatuck.

The Bon Ami has made her last trip this season. She is in dry dock in Chicago receiving some repairs. The steamer Saugatuck will make tri-weekly trips until the close of the season. The steamer Crouse will be pulled off the Milwaukee route after this week.

It is now reported that no work will be done on the electric road between here and Holland till spring, when it will be pushed to an early completion. The company has been granted the desired connection with the C. & W. M. R. tracks at Holland, and the last stumbling block has been removed, and it will be clear sailing from now on.

The November Cosmopolitan will have an article "In Porto Rico with General Miles," beautifully illustrated, by Hon. Warner P. Sutton of this place. Many of the views were taken for him for this special work of illustrating the article. Mr. Sutton himself is just now trying to get rid of the malarial fever which he brought back from that island as a result of a month's stay in summer.

Chas. Thew was in Allegan all last week and part of this trying cases in

the circuit court. He was engaged as assistant counsel in the Bennett forgery case and won gold opinions from from those who heard him.—Commercial.

Wm. C. McVea has sold a 400 foot strip of land along the lake shore of his farm to Chicago parties. It will not be many years before every foot of land from the mouth of the river to Capt. Reid's will be owned and occupied by resorters.

Fred Clark of Holland was in town this week putting in water pipes and doing some plumbing.

The vast peach orchards of southeastern Michigan are being destroyed by a new tree disease which is fourfold more damaging than the dreaded yellows. It was first noticed in this section two years ago, and, owing to its peculiar effect, which is a staining of the fruit when about the size of hazelnuts, has lately been given the name of "little peaches." So fearful have been the ravages, amounting in several instances to the utter annihilation of large orchards, that the growers have petitioned the agricultural bureau of the government to send an expert pomologist to investigate it. In response to this petition, Prof. Irwin Smith, pathologist of the pomological department of the agricultural bureau, arrived here about ten days ago for the purpose of investigating the new disease and suggesting a remedy. Last week he met the Saugatuck and Ganges Pomological society and stated that he had been unable to discover the cause or character of the disease. In many particulars the new disease resembles the yellows, and by many is considered a new form of that disease; but it spreads much more rapidly and causes the tree to die at the end of the second year, while with yellows the trees will live from three to five years. In this township alone about 4,000 trees have been destroyed this season, and unless a remedy is soon found the farmers of southeastern Michigan will go out of the peach business.

#### Port Sheldon.

Grain looks well this fall.

Chris Cook says he never saw such a big bar across the mouth of the river before. The bridge is covered with water.

Mr. and Mrs. J. Davis have gone to visit their folks for a week.

Mr. and Mrs. G. Davis have moved back here.

Wood hauling has again commenced. Mr. Gooding has started his stove mill.

All are glad to see Billie Miles back again.

#### General Items.

Scientists are puzzled over the fact that dozens of lakes in Berrien county are slowly receding and in a few years must be entirely dried up.

The world does actually grow wicker as it grows older. The year 1900 will be a "naughty" year, and when the year 2000 rolls around it will be still "naughty"er.

Al. Ringling, one of the owners of the great Ringling circus, was recently sent to prison for five years from an Ohio town, for killing a faker who persisted in following his show.

Picket pockets were thick and did a thriving business at Kalamazoo last week.

Seventeen sailors killed and eighty-four casualties all told was the total loss suffered by our navy during the war.

When the Lima railroad boom was on last winter the little city of Tecumseh put in \$20,000 in cash in order to secure some of the offices and shops of the company. Now the news comes that these offices are being moved to Lima and Tecumseh people are rather unruly.

Miss Jennie Mathews met death by a horse kicking her in the side at her home in Kalamazoo last week. She died in a short time after the occurrence.

Sheriffs of Branch and Allegan counties went to Fort Wayne, Ind., last week, to capture sparrow poisoners, who have been operating there and in other northern Indiana cities for the past month. These men scatter poisoned wheat on the public highways at early morning hours. Thousands of birds eat the grain and then quickly perish. The motive was a mystery until a few days ago, when a stranger, called at the recorder's office in Battle Creek asking for \$500 bounty on 2,000 sparrow heads. As Indiana pays no bounty, the birds are shipped across the State line.

The body of George H. Jacks, who was executed in Chicago on Friday for the murder of Andrew McGee, arrived here Sunday morning on the Goodrich steamer and was taken immediately to the public vault at Evergreen cemetery, where it was buried on Monday. It is said by the undertaker who had care of the body that never in all his long experience in the care of the dead has he seen a finer looking corpse. Jacks was a splendid specimen of physical development and his death in the full flower of life left his body in perfect condition.—Muskegon Chronicle.

Cedar Springs: The G. R. & I. station here has been burglarized. The safe was blown open, but only \$1.25 was taken. The work was evidently done by professionals.

The trucks of three cars on a south bound C. & W. M. freight laid out at 11 o'clock Monday. The wreck delayed trains several hours. No one was hurt.

The second university in the Anglo-Saxon world is the Michigan University at Ann Arbor. It has more students enrolled than Edinburgh, Oxford or Cambridge.

#### Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten millions trial bottles of this great medicine and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Heber Walsh of Holland and Van Bree & Son of Zeeland. Regular size 50 cts and \$1.00. Guaranteed to cure or price refunded.

Followed by Heart Disease, Cured by  
**DR. MILES' HEART CURE.**

**M. R. C. SHULTZ**, of Winterset, Iowa, inventor and manufacturer of Shultz's Safety Whiffletree Coupling, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the doses, having gained fifteen pounds, and am now feeling better in every way than I have for years."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, **DR. MILES MEDICAL CO., Elkhart, Ind.** Sold by all druggists.

#### Registration Notice.

**Strike Quickly.**  
"On the instant when a lion shows his temper" said a famous lion tamer "cut him quickly over the face. Don't wait until he springs at you." This is equally good advice for treatment of the lion of disease. Many an attack of dangerous illness would be headed off if at the first premonitory symptoms the victim would strike quickly.

Those severe coughs, bronchial affections and wasting diseases which merge into consumption would never get their savage teeth into the constitution if their early signs were headed off by Dr. Pierce's Golden Medical Discovery. It provides such an abundance of rich nourishing blood that tuberculosis germs have no chance to get any lodgment in the lungs. It cleans the skin and purges all the impurities from every organ. It invigorates the liver to expel all bilious poisons from the circulation. It creates healthy tissue, vitalized nerve fiber and gives solid strength.

"I have thought for a long time," writes Mrs. Rose Petty, of Lockville, Chatham Co., N. C., "that I would not do you justice if I did not write and tell you how I was cured of that dreadful disease called consumption, by using Dr. Pierce's Golden Medical Discovery. I had measles and pneumonia both at the same time, and came near dying, and as soon as I was able to get out I was taken with grip, and then followed consumption. My physician did all he could for my relief but I received none. I tried everything that I could hear of that was good for a cough but grew worse, and would have died soon had I not commenced using the Golden Medical Discovery. I felt improved before the first bottle was finished. I took six bottles, and after that I felt better and stronger than in ten years before. That was six years ago, and to-day do not feel any symptoms of a return of the disease. I remain cured, and I think I am the cause of a friend being cured by using the same medicine. He was afflicted as I was, and after every thing failed to cure him he took Dr. Pierce's Golden Medical Discovery and was cured."

## CHEERED BY THOUSANDS.

**President McKinley Receives a  
Hearty Welcome Upon His Ar-  
rival in St. Louis, Mo.**

**SPENDS A BUSY DAY IN THE BIG CITY.**

An Informal Reception Given at the Southern Hotel—Crowds of People Line the Thoroughfares—Speaks at the Merchants' Exchange and at the Exposition Building.

St. Louis, Oct. 15.—President McKinley yesterday was the guest of St. Louis, the city in which, two years ago, he received the nomination to his present high office. He was met by the cheers of thousands of people lining both sides of all the thoroughfares through which he passed. At the Southern hotel, where he stopped, an informal reception was given, at noon he addressed a large crowd on the floor of the Merchants' exchange and at the exposition building in the evening the president spoke as follows:

### The President's Address.

"My Fellow Citizens: My former visits to St. Louis are full of pleasant memories. My first was in 1888, and then again in 1892, both of which afforded me an opportunity of becoming acquainted with your people and of observing the substantial character of your citizenship. I omitted my quadriennial visit in 1896 for reasons which were obvious to you and have always been thankful that my presence seemed to have created no prejudice in your minds.

"I remember on the occasion of a former visit, in company with Gov. Francis and other citizens, to have witnessed the assembled pupils of the schools of the city at your great fair. It was an inspiring sight, and it has never been effaced from my memory. As I looked into the thousands of young faces of the boys and the girls, preparing themselves for citizenship, I had my faith confirmed in the stability of our institutions. To the youth of the country trained in the schools which happily are open to all, must we look to carry forward the fabric of government. It is fortunate for us that our republic appeals to the best and noblest aspirations of its citizens and makes all things possible to the worthy and industrious youth. The personal interest and participation of our citizenship in the conduct of the government makes the condition always an absorbing and interesting one.

### Our Credit of the Best.

"It is a matter of great gratification to the people of the United States to know that the national credit was never better than now; that for the first time in the country's history the government is floating a three per cent. bond, every dollar of which was sold at par and are now at a premium of five cents on the dollar, and that this profit has gone to the people. The loan was a popular one, and it has been a source of much satisfaction that the people with their surplus savings were able to buy the bonds. It is an interesting fact that while we offered but \$200,000,000 of bonds for sale, over \$1,400,000,000 were subscribed by the people of the country and by the terms of sale no one was able to receive bonds in excess of \$5,000. It is not without significance, too, that the government has not been required since 1896 to borrow any money for its current obligations until the war with Spain, while its available balance October 1, 1898, was upwards of \$307,000,000, of which sum over \$243,000,000 was in gold.

### Impressed All Nations.

"Nothing more impressed the nations of the world than the appropriation of a large national defense fund, which the treasury was able to pay from its balances without resort to a loan. While the credit and finances of the government have improved, the business conditions of the people have also happily improved. Both government and citizen have shared in the general prosperity. The money circulation of the country was larger on the first of July, 1898, than it has ever been, and there has been no depreciation of the value of our money. The people have borne the additional taxation made necessary by the war with the same degree of patriotism that characterized the soldier who enlisted to fight the country's battles.

### One Result of the War.

"We have not only prospered in every material sense, but we have established a sentiment of good feeling and a spirit of brotherhood such as the nation has not enjoyed since the earlier years of its history. Not since the beginning of the agitation of the question of slavery have there been such a common bond in name and purpose; such genuine affection, such a unity of the sections; such obliteration of party and geographical divisions. National pride has been again enthroned; national patriotism has been restored; the national union cemented closer and stronger, the love for the old flag enshrined in all hearts. North and south have mingled their best blood in a common cause, and to-day rejoice in a common victory.

**Restored Union Must Be Guarded.**  
"We must guard this restored union with zealous and sacred care, and while awaiting the settlements of the war and meeting the problems which will follow, we must stand as one man, not in the spirit of party, and united in a common effort for that which will give to the nation its widest influence in its sphere of activity and usefulness to which the war has assigned it. Let nothing distract us; let no discordant voice intrude to embarrass us in the solution of the mighty problems which involved peace and posterity. Let us remember that God bestows upon no nation supreme opportunity which is not ready to respond to the call of supreme duty."

### Leaves for Chicago.

The address of the president was received by his 10,000 auditors with the wildest cheers and at its conclusion the demonstration was simply indescribable. For a short time the president then viewed the sights of the St. Louis exposition, after which he left for Chicago.

### Arrives in Chicago.

Chicago, Oct. 17.—The president of the United States arrived in Chicago over the Illinois Central Saturday night at 9:20 and will be the central figure in the city's peace jubilee this week. He said just before leaving the train: "Throughout the journey I have been deeply moved by the patriotism of the people, and delighted with the evidences of their prosperity."

### Rests During Sunday.

The president rested during a great part of the day at the residence of Capt. McWilliams, his relative, where he is being entertained. For a short time in the afternoon he was taken for a drive in company with Mrs. McKinley, Capt. McWilliams and Mrs. McWilliams.

### Peace Jubilee Inaugurated.

The national peace jubilee was inaugurated Sunday night with union thanksgiving services at the Auditorium. The president attended and

listened to addresses by a Jewish rabbi, a Roman Catholic priest, a Presbyterian clergyman and a noted colored orator. Applause for the president was terrific and at one time he was compelled to rise in his box and respond to the frantic cheering of the audience. The services, however, were of a religious character, and at times the solemn silence of the vast assemblage was much more eloquent than the wildest applause could be.

### Given Cap and Gown.

Chicago, Oct. 18.—The University of Chicago on Monday conferred upon President William McKinley the degree of doctor of laws. Eight hundred people, as many as could be jammed into Kent theater, applauded to the echo as President Harper placed around the shoulders of the nation's executive the hood of purple—purple to indicate as Dr. Harper said in Latin that the recipient of the degree "had surpassed other men in native genius and devoted toil."

### A Public Reception.

At four o'clock he left the university grounds and was driven to the First regiment armory, where for some time he received the public informally. Great crowds of people thronged the streets, clamoring for admission to the armory, and only a part succeeded in meeting the president during the time scheduled for the reception. In the evening a dinner was tendered the president at the Auditorium hotel by President Harper, of the university.

## WEEKLY WAR HISTORY.

Because his men were not furnished with rations Capt. E. V. Walsh, of company F, First Missouri volunteers, marched his company out of Jefferson barracks in St. Louis and dismissed them—a thing unparalleled in military history.

### FRIDAY, OCTOBER 14.

The Spanish mail steamer Reina Maria Cristina sailed from Havana, for Spain with 1,000 officers and troops.

Fifty-five war vessels are now under contract for the government, and when completed America will rank third in naval power.

Gen. Brooke has been directed by the war department to consider the subject of a permanent garrison for the island of Puerto Rico.

Spain has acquiesced in the demand of the United States that the island of Puerto Rico shall be turned over to this government on October 18.

Maj. Gen. Francis V. Greene has been ordered to report to Gen. Fitzhugh Lee, and will command a division of the army of Cuban occupation.

Orders were issued by the war department reducing the number of men in the Nebraska regiments to 81 men, but Col. Bryan will remain in the service.

The court martial in the case of Joseph P. McIntyre, chaplain of the warship Oregon, found him guilty of conduct unbecoming an officer and sentenced him to dismissal from the naval service.

### SATURDAY, OCTOBER 15.

Maj. Gen. Sumner, promoted for gallantry in the battle of San Juan, will be sent to one of the corps in the south and given command of a division.

The Spanish government cabled Gen. Blanco not to turn over any further territory to the Americans until the peace treaty had been definitely signed.

Montero Rios, the president of the Spanish commission, said in Paris that Spain would never give up the Philippines, no matter what the consequences might be.

A Manila dispatch says that Macabulos, the chief controlling the five northern provinces of Luzon, has revolted against Aguinaldo, and that sharp fighting between the insurgents is proceeding.

### MONDAY, OCTOBER 17.

The war investigating committee left Washington for the south.

Premier Sagasta denies the truth of the report that Gen. Blanco will be recalled from Cuba.

A dispatch from Paris says it is almost a certainty that there will be a rupture in the peace negotiations.

A society to be known as the Society of the Army of Santiago de Cuba is now in the process of formation.

Gen. Maximo Gomez, commander in chief of the Cuban army, quarreled with his whole staff near Rojas and they all left him.

President McKinley has ordered that Jefferson barracks, near St. Louis, be made as large a military post as any in the country.

Col. Waring has found Havana dirtier than he anticipated. He says it will be necessary to tear open the streets and lay drainage pipes and sewers.

### TUESDAY, OCTOBER 18.

Brig. Gen. O. H. Ernst and staff, with about 1,000 troops, arrived in New York from Puerto Rico.

Gen. Macias, recently Spanish captain general of Puerto Rico, has sailed from San Juan for Spain.

Troops from Camp Merriam to the number of 800 sailed from San Francisco on the steamer Senator for Manila.

The national government has paid in full the claims of Illinois for \$250,000 for feeding and equipping the regiments that went into the volunteer service.

It was stated at the war department that troops would not be sent to the southern camps until after frost had made it certain that yellow fever would not be spread.

At the peace conference in Paris Judge Day presented the demands of the American commission in threatening words. He said that delay would no longer be tolerated, the Cuban debt would not be considered, and demanded the complete surrender of Puerto Rico.

Is making several of her superb Water Color Portraits to replace some of those cheap colored ghost pictures (made by cheap refuse colors that soon fade out and wither up the features till the subject looks like an old Egyptian mummy), put up by those migrating cheap John's in their "dead give away schemes," with an eye opener on the end of the scheme. In the past we have put up a large number of her healthy looking portraits in the place of sickly and even dead looking pictures, to the great delight of the customers who say: "There, that is worth a hundred of those sick pictures." ### Political Notes.

A most gratifying feature of President McKinley's administration is that in all the perplexities that were so suddenly crowded upon it by and during the war the executive has retained not only the confidence and support of those who placed him in office, but more than that, he has had the assistance and confidence of many of the responsible leaders of the Democracy, north and south, loyally and sincerely rendered, without thought of partisan or political differences. When the record of his administration is made up there will stand to the credit of President McKinley no more proud or gratifying achievement than this—that he has won and kept the confidence of his honorable political opponents. He has had behind him the support of the American people with a greater degree of unanimity than any president since Washington. The party and the administration which has had the responsibility in this war; which has given such new glory to our arms and luster to the American name, has not been a party nor an administration of partisanship, but of patriotism. Our president, serene, patient, sagacious, sympathetic, great, has been the nation's chief, indeed.

If the United States were to be placed on a silver basis the earnings of the railways would be, of course, in silver dollars, or their equivalent. The railways could not put up their rates, and at the best they would only get the same number of dollars as they do now, but those dollars would purchase less, because they are worth less. They would purchase less machinery, less fuel, less supplies—that is to say, the expenses for the railways for these items would be materially increased. Railway companies, therefore, would have less money to pay interest, to pay labor, and to pay dividends. First of all they would pay no dividends; but that would not meet the deficit. The interest charges on bonds already issued all have to be paid in gold, and the companies would have to make a desperate effort to pay those charges, but having nothing but depreciated silver dollars to pay with, the effort would necessarily be futile. No railroad company in the country could meet its annual interest charges, and there could not be anything but bankruptcy ahead. Meanwhile, while the struggle was going on, labor would suffer. The railroad companies would be compelled to cut their pay rolls and to cut their wages. There would be fewer men employed. They would probably get less wages, and every dollar of those wages would produce less than it does today. While, therefore, the interest of capital in the gold standard is large, the interest of labor is incomparably larger. Labor would suffer most severely by any tampering with the currency. In 1896 eighty per cent of the railway men voted for sound money, which is to say that railway men cast 750,000 votes for William McKinley. They will do it again as long as the question of the monetary standard comes up, because their interest in the maintenance of the best standard is overwhelming. And the same holds true of every man who labors for fixed wages, be it in shop or factory, or office or farm.

The attitude of the Democracy just

now is one of negotiation, says the Memphis Appeal, a leading Democratic organ of the middle south. It opposes. It criticizes. It tells people how badly things have been done by the Republicans and how much better they could have been done by the Democrats. It proposes nothing. It seems to have lost the power of initiation. It sits by with folded hands until something is done by the Republicans and then makes faces at it and belittles it. Not so was Democracy of old under its great leaders. Not so must Democracy be now if it expects to be more than a minority party. Its faces must be turned forward and not backward. It must advocate policies for the future and not whine over the facts of the past. It must prepare to do and not content itself with merely floundering fault with what has been done or what may be done. There are grave problems and large issues to be solved and settled, but as yet we have heard nothing from the Democratic leaders which would indicate that they possess even a vague idea of what course to pursue in the future. We are bellowing about plutocratic imperialism while the Republicans are setting up a public school system in Santiago and sending supplies to the starving Cubans. We want to put in leadership men of ideas, convictions and courage to turn loose the dead past and grasp the living present. We want a leadership that will lead aggressively and intelligently and not one that is merely querulous, censorious and reminiscent. At no time in the history of the country was there such a splendid opportunity for leadership in the Democratic party. The occasion is here and unless the man meets it the party may make up its mind to remain out of power.

Of all the problems arising from the war with Spain, that furnished by the conquest of the Philippine Islands is the most perplexing. Every consideration of humanity forbids the giving them back to Spain: there are diplomatic and other difficulties in handing them over to any European or Asiatic power; while to extend over them a protectorate or simply annex them involves so revolutionary a departure from the traditional policy of our nation, that it may well occasion hesitation. If they are kept, it will be from no desire of territorial extension, or national aggrandizement, but simply from a sense of duty toward an oppressed people. Races yet largely barbarous and savage, a population partially civilized, yet mercilessly robbed and pillaged, have without our seeking been thrust upon us. The task of governing, educating and civilizing scattered millions of mixed races is a most formidable one, and has many well nigh insuperable difficulties. If considerations of advantage for ourselves were alone to have weight, it could quickly be decided that we do not want them and will not take them. But the national conscience raises the question of responsibility of the stronger toward the weaker, and asks, are we not under a moral obligation to care for the best interests, and seek to uplift and train for self-government the inhabitants of these islands?

President McKinley has borne his part so as to challenge the just appreciation of the world at large. Albeit that he came to his high position with a diversified experience, and with a record for honor and integrity, he had occupied no position that equaled in its momentous consequences the position of President of the United States in case of a great foreign war. His friends had claimed for him that in every position of life in which he had been found he had filled the position to its utmost, and this fact gave assurance of what the American people might rely upon when war should come. His friends—and they are counted by millions and millions of men who did not vote for him—point with pride to the fact that with untiring energy with sleepless vigilance, with intelligence that seemed inspired, he has ordered every movement of our war operations with justice to all men, with sympathy to the fallen, with a heart running over with generosity to the men of all parties who have helped in this great emergency. He has issued every order, controlled every movement, and stands before the American people not only the good man that he is, not only the amiable man that he is, but the man of mighty genius that he is. In the foreign countries of the world President McKinley ranks among the great men. His genius is appreciated, his unflinching fidelity is accepted, and his wisdom is commented upon, and he is entitled to a like endorsement at the hands of his countrymen, in November next.

The maintenance of a double standard through international agreement, appears no longer probable. The adoption of the gold standard is rapidly being accepted by all the nations that have hitherto clung to silver. That the displacement of silver and the supremacy of gold as a standard, has been brought about by conditions not the result of any effort on

the part of banks, banking institutions or individuals, but from natural causes is rapidly becoming a fixed conviction. For centuries, acting on theory only, there have been those who have insisted that, by legislation, something could be created out of nothing. Many times has the experiment been tried, and as many times have these experiments failed. There are those who claim it is within the province of the government to create money. This was not tried in the United States previous to the period of the civil war, when, driven to the urgent demand for currency to pay soldiers in the field, the congress of the United States resorted to the doubtful authority of issuing legal tender notes, commonly known as "greenbacks," of which \$450,000,000 were issued. It is difficult to tell how much these cost the taxpayers of the United States. It has been estimated that it increased the cost of the war fully half. But all this is past, and the time has now come that the nation should be placed on a sound financial basis; that its currency should be uniform and that the nation should go out of the banking business and not be hereafter compelled to go into the market and buy gold to maintain its established high credit. The agitation which has been kept alive, with reference to the free and unlimited coinage of silver for a quarter of a century, in this country, has done more damage than all the failures of crops, plagues and pestilences, that could befall the American people in a century, and the greatest hardship in this regard have fallen on the laboring classes.

### Board of Supervisors.

The county superintendents of the poor made their annual report, which was referred to the proper committee. The amount expended for the support of the county poor during the year ending Oct. 1, is \$6,568, of which \$2,692 was used at the infirmary and farm, and \$3,875 for transients in cities and towns. The largest items for transients are Grand Haven city \$1,298, Holland city \$1,171, Zeeland \$854, Spring Lake \$104, Grand Haven town \$181, Holland town \$131.

The number of inmates in the infirmary is males 83, females 7; deaths during the year 4. The amount recommended for next year is \$5,000. As county canvassers of votes the board elected Wm. H. Sivers of Wright, Jacob Glerum of Grand Haven, and Henry Bosch of Jamestown. George Dalman of Holland was elected alternate. The compensation was fixed at \$3 per day.

Wm. N. Angel was unanimously re-elected county superintendent of the poor, for three years.

On Wednesday the board made its annual visit to the county infirmary and farm.

Prosecuting Attorney Visscher submitted an opinion that under the general incorporation act of cities, the right of a city to the use of the county jail is limited to the confinement or imprisonment of persons who have been lawfully sentenced or committed thereto by some competent court or magistrate.

The Soldiers Relief commission presented their annual report, showing an expenditure during the year of about \$400, and fixing the amount to be raised next year at \$500.

The judge of probate submitted a report of his doings in connection with the insane. During the year 13 patients were committed to the asylum at the expense of the county, of which 7 were males and 6 females; 1 has died; 3 were discharged; total number at present maintained in the asylum at the expense of the county 18; amount recommended for next year \$3,500.

Several important matters have been made a special order for consideration at today's session, among them the purchase of a burglar-proof safe for the county treasurer's office; the use of the county jail for the detention of drunks, etc., before commitment; the abolishing of the distinction between county and township poor, the same to take effect January 1 next.

### Attorney-General Griggs on the Future of America.

"This has been a year unequalled for progress and accomplishments. The hand of man has not fashioned nor the eye foreseen the work that has been wrought. Call it fate, the progress of events, providence, God, what you will—it has been a leading, upward and on, the drawing forward by irresistible impulses of this people to a place at the front of the world.

"To Capt. Gridley at his post on the deck of the flagship Olympia on that memorable May morning came the quiet word of command as Dewey said, 'You may begin firing, Gridley.' The guns that responded sent forth death and destruction, but in the light of their flashes was revealed a new hope and a better life for millions for whom theretofore the sun of liberty and civilization had never shone except through murky clouds of barbarism and superstition.

"And so this nation enters upon a new era. Do not doubt but that we will be equal to the responsibilities. I believe in the capacity of Americans

that have been treated year after year in vain, and finally given up as hopeless, now being cured by

## DR. F. McOMBER

This Famous Specialist has had extraordinary experience in the treatment of Chronic Diseases, covering a period of 28 years. His careful and accurate diagnosis of obstinate and obscure chronic maladies, and the prescription and application of treatments certain to cure, place him at the head of the front rank in his profession. His long years of experience enable him to cure diseases of men and women heretofore considered incurable. Consultation free.

### CATARRH AND ITS COMPLICATIONS

You say "Something is the matter with me, I feel so bad. I have doctored and taken patent medicine until I am almost discouraged, and yet no doctor seems to know what ails me—they all have different ideas as to my true condition." This is what is heard every day, and the reason is want of correct diagnosis and proper treatment. For convenience of the afflicted Dr. McOmber has enumerated a few symptoms under different headings to enable those in need of treatment to determine exactly what their disease is. It is not expected that every case will have all of the symptoms given below, but every afflicted person will quickly recognize those most prominent in his or her case:

**Diseases of Head and Throat**  
Are either a form of Catarrh or diseases resulting from it. The Catarrh usually starts from a cold and, if not cured, soon becomes chronic and invades the mucous membrane, tissue and bone, until untold mischief is done.  
You spit up slime.  
Your nose is stopped up.  
Your breath is offensive.  
You ache all over.  
Dull pain across the eyes.  
Sometimes snore at night.  
Voice is not clear.  
Have tickling in the throat.  
And sneeze frequently.  
Discharge from the nose.  
Losing sense of taste and smell.  
Pain across the forehead.  
Nose is tender and sore.  
Crusts and scabs form in nose.  
There is a dropping in throat.  
Nose bleeds easily.  
Frequent pain in back of neck.  
**Ears, Ears and Deafness**  
Diseases of ears—caused more frequently from catarrh than otherwise—usually result in deafness. Only one who has made a life study of that understands thoroughly the nature of ear diseases can, with any possible certainty, treat these delicate organs scientifically and intelligently, as well as with assurance of success. Dr. McOmber's experience and success in curing all manner of ear affections and deafness has been phenomenal. Read elsewhere what has been said of him. Those approaching deafness may find some of their symptoms in the following:  
Buzzing and other noises in ears is certain approach of deafness. The hearing falls gradually. It is hard for you to understand, when he is a room where there are several talking. There are  
These are often dry and scaly. Sometimes itch and burn. Pain in ears, and  
Pain in the throat, and  
Hearing usually worse in cloudy weather and worse still when you have a cold.  
Sounds are varied—cracking, rattling, humming, etc.  
Roaring of water fall, throbbing, and other sounds that often keep you awake nights.  
Pain in ears, hurt when noise is blown.

**Diseases of Bronchial Tubes**  
Catarrh, by its spreading, creeping, and reaching for more soil for its poisonous germs, very naturally and readily invades the air passages of the lungs. The example of procrastination has been before you all your life. It should not be necessary to say: "Don't put off too long"—go now and consult the only specialist that never makes a failure of curing catarrh in all its varied and worst forms. See if any of the following symptoms fit your case:  
You have a tickling in throat and winnowing caused by irritation, creating cough.  
Cough usually worse night and morning.  
You first raised frothy matter. Now you raise yellow phlegm. Sometimes streaked with blood. Occasionally cheesy lumps.  
You may have or already had Hemorrhage.  
You are losing in flesh and strength, often experience Pain behind breast-bone and Burning pain in throat. Sharp stitches in side.  
You sometimes cough and gag and you feel raw and raw.  
Your shoulders ache.  
Appetite poor and you are growing weaker and weaker, and should put off no longer the great duty you owe to yourself and family to consult the most successful specialist to be found, who is Dr. F. McOmber.

**Catarrh of Stomach**  
Dyspepsia and other stomach diseases are frequently, but not suspected or even surmised to be, a result of catarrh, but the constant dropping and swallowing of nauseous mucus from the posterior nares does, with mathematical certainty, poison and infect the mucous membrane of the stomach, deplete and impair its functions. The same as it does the delicate membranous tissue of the Eustachian tubes that leads to destruction of the delicate structures of the ears. Dr. McOmber removes the cause with ease and with his new improved and wonderful treatment, gives tone and strength, vitality and increased power of digestion. All

**Catarrh of Liver and Kidneys**  
Many of the same symptoms are present in catarrh of the liver and kidneys as are enumerated in catarrh of the stomach, and, in most cases, they require very similar treatment:  
Bowel irregular; constipated.  
You are nervous and irritable.  
No energy; get dizzy at times.  
Feet cold; have hot flushes.  
Pain in back and around loins.  
Sometimes a throbbing in stomach; a feeling of lassitude.  
Palpitation of the heart.  
Skin sallow and pale, or dry.  
Sometimes has a waxy look.  
Your legs feel heavy and  
You are unable to walk.  
Hands perspire and feel swollen and joints ache and pain.  
Eyes dull and listless—Dark rings around them.  
Urine cloudy and has sediment.  
Soreness in neck of bladder and you have  
Frequent desire to urinate.  
These maladies baffle the skill of the best physicians, especially catarrh of the kidneys. Were it not for his great experience, backed up by the most successful treatment of the present age, Dr. McOmber would not be able to accomplish such wonderful cures as he does. No matter how severe the case, he writes all to investigate and consult him.

## CHRONIC DISEASES

It is by the use of the greatest treatment, medical discoveries and inventions, the most perfect methods and effective measures and healing agents ever employed, combined with great skill acquired from an enormous experience, that enables Dr. McOmber, the famous specialist, to perform such wonderful cures—cures that would be utterly impossible to effect by ordinary methods.  
His treatments cure, and he will supply you with evidence as proof. Bedfast and given-up-by-others as hopeless cases owe their enjoyment of life today to him, and never tire in their praises of his wonderful treatments. They give new life, increase vigor, vitality, healing energy and tone to the entire system, and especially to the organs for which treatments are prescribed.  
**WOMEN** who have sought in vain for years for relief from inflammations, ulcerations, falling or displacements of the womb, pain in loins and back, between the shoulders and back of neck, painful menstruation, discharges, itching, burning, smarting, and other symptoms peculiar to sex, get quick relief and cure with the utmost certainty. Consultation always free.  
**Nervous Debility** and all its attending ailments, both of young and middle-aged. If you are suffering from the awful effects of neglected or improper treatment, increasing weakness of body and brain, dizziness, falling memory, lack of energy and confidence, pains and other distressing symptoms, unfitting you for study, business, or enjoyment of life, and feel discouraged and despondent at times, you should lose no time in consulting Dr. McOmber, one who has cured thousands who have suffered as you do, and now thank him for complete restoration to health and happiness once more.  
**GOOD LOOKING FACES** are made homely by unsightly moles, hairs, birth-marks, red spots, nose patches, pimples, sores, blackheads and other excrescences. Ladies who value their complexion and personal appearance should consult Dr. McOmber. He removes blemishes of every nature from any part of the body. No knife, no pain, no scar.  
A lady representative wanted in every locality in the United States and Canada. Particulars on application.  
**CROOKED EYES** straightened and made perfect in a few moments without pain or the use of chloroform by Dr. McOmber's new method. No failures.  
**BLINDNESS PREVENTED.** Inopelent cataracts removed by a harmless method of absorption, and weak, watery, sore eyes readily cured.

ALL CONSULTATIONS AND EXAMINATIONS FREE AND CONFIDENTIAL.

to govern—to govern themselves and to govern others. I set up no dogma of infallibility, but expecting mistakes and delay and disappointment, I believe that the boundless capacity and the splendid courage of America, with her high sense of justice, her appreciation of the rights of man, will in the new duties placed upon us, work out marvelous good for the peoples that have come under our guardianship, and greater glory for our country.  
"And how we have been blessed already! All the old root of bitterness between north and south removed! What years and years of political effort could not do, was done in a moment when our standards were set toward a foreign foe and the consummate tact and grace of President McKinley refused to make any distinction between federal and confederate, but put Lee and Wheeler side by side with Kent and Shafter, 'Yanks' and 'Johnnies' all keeping step together to the music of the union.

#### Next Week's Visitor.

Dr. A. Kuyper concludes his series of six lectures at Princeton University to-day, and starts on his western trip next Monday. After having visited the Falls he expects to reach Grand Rapids on Tuesday, will lecture in Hartman's hall on Wednesday evening, arrive in Holland on Thursday and speak here on the evening of that day, in the Third Reformed church. Tickets have been placed at the stores of H. Kleintjeld and Jas. A. Brouwer. Their sale will be limited to the capacity of the building. The committee charged with his reception and entertainment have further arranged for a drive the next day, and a banquet at the New City Hotel in the evening. Saturday Dr. Kuyper will proceed to Chicago and during the week following will deliver three lectures at the McCormick Theological Seminary and thence proceed further west on a visit to the Dutch settlements in Iowa.

For a number of years it has been the desire of Dr. Kuyper to visit this country. Nothing short of this could satisfy the cravings of a cosmopolitan mind such as his. To say that he is one of the eminent men of his day in Europe is no exaggeration, clouded though as the assertion may appear by the limitations which the geographical boundaries of "Little Holland" place about him. He is eminent in the domain of church and theology, politics and statesmanship, education and art, literature and history, journalism and oratory. He is a leader of men; the founder of a University, of a political party, and of the re-organized Free Reformed Church of Holland; the author of a hundred and more works on different topics, mostly standard; he fills one of the theological chairs in the Free University of Amsterdam; is a member of the Dutch parliament (States-General); editor-in-chief of a daily paper, which is political and the leading organ of his party; and also editor of a weekly religious paper, the leading organ of his denomination.

The unsatisfactory condition of national affairs existing in the Netherlands to-day accounts for many of the groupings enumerated in the above. The situation there is so unlike to what we have here that it can only be understood and justified by those who have followed the trend of events, and then it becomes as natural and self-evident as it appears unnatural with us. This condition of affairs was not always thus, and neither Dr. Kuyper nor the present generation is responsible for it. It is a deplorable legacy left to them through the arbitrary remodeling of the national church by King William I, the great grandfather of the present queen, when in 1816 at the close of the Napoleonic regime, preceded as it was by the French revolution, everything in Europe, including the Netherlands, was reconstructed, church as well as state. It was then that the state in a high-handed manner assumed jurisdiction and control over the church, and church

questions and church polity and creed became determining forces in the political arena. Were we to follow this up a little further we would soon touch upon the causes that were so influential in directing the immigration from Holland to this country in 1847.

As theologian Dr. Kuyper represents the principles that were formulated in Holland at the time of its rebellion against Spain, and even prior thereto, leading back to the reformation, and which principles gave Holland its place in history. For the promoting of these stands also the political party of which Dr. Kuyper is the leader, known as the anti-revolutionary party, in contra-distinction of the character and teachings of the revolutionary French period, which for the time being also swept Holland from its conservative moorings. To lead Holland back to the tenets of that early period in its history, and on that foundation to build up a new development—this is Dr. Kuyper's aim as a theologian and a statesman. Just now his political party is divided into two groups, aristocratic and democratic. His sympathies and labors are with and in behalf of the latter. In American history he cherishes the motives and the principles of the New England forefathers.

Dr. Kuyper is a man of sixty years of age, the son of a clergyman. His ancestors followed the sea, and were whalers. He graduated at Leyden's historic university, and entered the ministry in '63. In '70 he accepted a call to Amsterdam, and in '74 he was elected to the States-General. Soon thereafter he resigned. He found himself a leader without a national following, and in order to obtain that following he entered upon a career of journalism, which for brilliancy and aggressiveness stands unrivalled. In '94 he re-entered parliament, and was again returned at the last election.

With all the accomplishments of a student and a leader he has also the prestige of being an orator of the highest and most cultured order. Whenever or wherever he appears before the public his receptions are semi-ovations. As a statesman he ranks among Holland's ablest, and in treating the great social and economic problems of our day his sympathies are decidedly with "de kleine man"—the masses.

It will be readily understood by our readers that it is a difficult task, next to impossible, in a brief article like this to do justice to a man of such eminence, when viewed amid his own environments, which are all foreign. We merely skim along the surface so as to give a faint explanation why the visit of Dr. Kuyper to this city is looked upon by his former countrymen as one of the notable events of the year about to close.

#### Court Stenographer.

A meeting of the members of the bar of Allegan and Ottawa counties, comprising the twentieth judicial circuit, was held in this city on Monday, at the office of G. J. Diekema. The meeting had been called by Judge Ph. Padgham, and was brought about by the vacancy in the position of court stenographer of this circuit, which office had been declared vacant by Gov. Pingree. The law providing for circuit court stenographers fixes the tenure of their office during the pleasure of the Governor, and upon their removal by him he appoints his successor upon the recommendation of the Circuit Judge. For some reason or other the Governor saw fit to remove the present incumbent, Charles H. Bender, and in notifying Judge Padgham to that effect, the governor also wanted the latter to nominate as his successor Harvey A. Sherman, the present secretary of the Republican State committee, and formerly the Governor's private secretary.

There were present at the meeting from Allegan, Judge Ph. Padgham; Judge W. B. Williams, Judge H. H. Hart, Prosecuting Attorney F. E. Fish, Chas. Wilkes, and W. W. Warner; and from Ottawa, Judge C. E.

Soule, Geo. A. Farr, Prosecuting Attorney A. Visscher, P. H. McBride, J. C. Post, G. J. Diekema, Geo. E. Kollen, A. Van Duren, W. O. Van Eyck, and C. H. McBride. The delegates present from Allegan and Grand Haven had with them proxies from a number of attorneys who could not be there, so that in all twenty-seven were represented. The meeting organized by electing G. J. Diekema chairman and F. E. Fish secretary. Judge Padgham announced that before recommending anybody to the Governor he desired to know the wishes of the bar of his circuit. The situation was canvassed and a vote taken as to their preference for a successor, with the following result: Jos. H. Brewer, 20; E. E. Richards, 4; Charles H. Bender, 1; Harvey A. Sherman, 1. The recommendation of Jos. H. Brewer was then made unanimous.

The meeting further expressed its sentiments on the Governor's action by formally adopting a set of resolutions denouncing the growing tendency of His Excellency to centralize everything in and about himself.

During their stay in the city the visiting attorneys were the guests of the local bar, who entertained them at dinner in the City Hotel and then took them on a trolley ride to Macatawa Park.

It should be stated in justice to Mr. Bender, who has filled the position of court stenographer for a series of years, that during his incumbency the duties of the office have at all times been discharged in a manner highly satisfactory to the Court and the attorneys. In an interview with Mr. Bender, in the G. R. Herald of Thursday, he is reported as not having been removed by the Governor, but as having sent in his resignation. Perhaps both versions are correct, leaving it still open as to who acted first, Gov. Pingree or Mr. Bender.

In the mean time the board of supervisors, now in session, have authorized Judge Padgham to employ a stenographer, until one shall be regularly appointed and qualified.

#### The Death of Rev Peter Zwemer.

Wednesday morning the sad intelligence reached here of the death on Tuesday evening of Rev. Peter Zwemer, the Arabian missionary, in the Presbyterian hospital, New York.

The dread event was anticipated. A temporary rally a few weeks ago somewhat revived the hopes of his friends that had watched the course of his disease, but since then the inevitable has been looked for. Wrote his brother Rev. James F. Zwemer, who with his sister were with him in New York: "He is wasting away in spite of all the nourishment he takes and retains, and the latest opinion of a renowned specialist is the presence of an oriental bacillus in the digestive organs and related channels, that causes non-assimilation of any and all food; hence slow starvation." Nevertheless until the last Peter had confidence in his recovery and his mind was incessantly wrapped up in the future of his work in Arabia.

The remains arrived in Holland on Thursday evening, were taken to the home of his aged father on College ave., and will be buried this afternoon, from the First Reformed church. The funeral sermon will be preached by Rev. J. Van Houte, other clergymen also participating in the services.

The deceased was 30 years of age; was born in South Holland, Ill.; graduated from Hope College in '88, and from the Theol. Seminary in New Brunswick, N. J., in '92. His aim had been for years to devote his life to the cause of missions, and six years ago he went to join the Arabian mission of the Reformed Church at Muscat. Last summer he was taken ill, the extreme heat of the climate and the insanitary condition of the locality telling upon his vigorous constitution with such an effect that the doctors told him the only chance for his recovery was in an immediate change of climate. On July 12 he reached New York and was immediately taken to the Presbyterian Hospital, where he lingered since.

Besides the deceased two other members of the Zwemer family have devoted themselves to the cause of missions, namely his sister Miss Nellie Zwemer, of the Amoy mission in China, who joined that field in '91 and is now home on a furlough, expecting to return in December, and his brother Rev. Samuel M. Zwemer, also a missionary in Arabia, in charge of the station where he labored with the deceased, and who only recently returned there from a visit to this country.

Besides the brother and sister already named the departed leaves an aged father, Rev. Adrian Zwemer of this city, two other brothers, Rev. James F. Zwemer, late of the Northwestern academy, at Orange City, Ia., but now of Grand Rapids, and Rev. Fred J. Zwemer, of Sheboygan Falls, Wis., and five sisters, Mrs. B. J. Neerken, Fillmore, Mrs. L. Joldersma, Grand Rapids, Mrs. Rev. A. H. Stabbinck, Marion, N. Y., Miss Maude Zwemer, who is at home in this city, and Miss Henrietta Zwemer, teacher in the Northwestern Academy, Orange City, Ia.

##### GRAND RAPIDS CARNIVAL.

October 24th to 28th the C. & W. M. and D. G. R. & W. Ry. agents at all stations will sell tickets to Grand Rapids and return at one way fare, all good to return until October 29th inclusive. Don't miss this chance to HAVE MORE FUN than last year. 39 2w GEO. DEHAVEN, G. P. A.

It has been held that consumption is hereditary, and the fact that one person in a family died of consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is like to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. Keep the lungs full of rich, red, wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and the new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

#### A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back, and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness, and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at Heber Walsh of Holland and Van Bree & Son of Zeeland.

has turned the tables on high price baking powders. The directions on High Price cans are the same as on Calumet cans, viz.: a teaspoonful to a quart of flour, but they say that one can of High Price will go three times as far as any other. Can any claim be more ridiculous? The frantic cry of adulteration, danger and poison made by the high price baking powder people is a blind to intimidate the public and induce them to pay fancy prices for their goods—also to divert attention from this defect in their own goods.

## MANY LIVES LOST AT SEA

The British Steamer Mohegan Hits a Rock on the Coast of Cornwall, England.

### BOUND FOR AMERICA FROM LONDON.

Of Two Hundred on Board, But Thirty-One Are Rescued—Many Bodies Washed Ashore—A Strong Easterly Gale Was Blowing and the Sea Was Running High.

London, Oct. 15.—The Atlantic Transport company's steamer Mohegan, formerly the Cleopatra, of the Wilson & Furness-Leyland line, which left London for New York Friday with 200 passengers and a crew of 150, is ashore off the Lizard, between the Manacles and the lowlands.

According to a dispatch just received from Falmouth, out of 200 persons constituting the passengers and crew of the Mohegan only 31 have been saved.

#### Later News from the Wreck.

Falmouth, England, Oct. 17.—More than 100 lives were swallowed up by the sea when the steamer Mohegan went down Friday night. Although the number of victims is not so large as at first reported, the best accounts obtainable show two-thirds of those aboard perished. All day long bodies were washed ashore along the coast, and wreckage is scattered along the beach for miles. The survivors are receiving the best of attention and care. Of the 161 persons on board the Mohegan when she struck the rocks only 45 escaped, and these were nearly all picked up by a boat from the life-saving station.

#### Fifty-One Bodies Recovered.

Up to midnight 51 bodies had been recovered. Some were found miles away, in coves, and it is expected that more will be washed ashore to-day.

### SPANISH VIEW OF THE PEACE CONFERENCE.

[From Nuevo Mondo, a Barcelona Comic.]

Walter McKinley—Fried eggs! Fried eggs! Fried eggs! Sagasta—But, my dear sir, when there is nothing but fried eggs on the menu, what choice have I? Walter—Well, sir, you have the choice of eating fried eggs or refusing them.

Many persons undoubtedly were killed by being dashed on the rough rocks who would have escaped if cast ashore on an ordinary coast. Some of the bodies are horribly mangled. A good deal of jewelry and money has been found. As all the navigating officers were lost, it is doubtful whether light will ever be thrown on the causes of the disaster.

#### Crashed Upon Hidden Rocks.

From the best evidence obtainable at St. Keverne it appears that the Mohegan foundered five minutes after she struck the rocks. She was going at full speed; she struck twice, stopped and rapidly settled in the water. As the captain and the executive officers of the steamer went down with her, it has been impossible thus far to ascertain how she got out of her course, as Falmouth light and the coast were visible.

#### Passengers Mad with Terror.

The terror of the scene was indescribable. Men jumped overboard in an agony of despair and the women passengers huddled together and refused to leave the deck. The officers remained on the bridge to the last, and many instances of sacrifice are recorded.

#### Entire Family Lost.

The death of Mr. T. W. King, who was a newspaper proprietor at Nantucket, Mass., and of his family, including Mrs. King, her mother, Mrs. Weller, and his sons Rufus, aged 11 years, and Anthony, aged seven years, has caused deep sorrow at Penzance, where the family had a summer cottage and were very popular.

#### British Vessel Burned.

Margate, England, Oct. 18.—The British ship Blenheim, Capt. Johnson, from New York for London, was destroyed by a fire off this place and seven of her crew and the captain and his wife and two children and a pilot perished.

#### Brought a Great Price.

New York, Oct. 18.—At the auction sale of thoroughbreds at Morris Park the great race horse and sire, Meddler, was knocked down to Sydney Paget, acting for William C. Whitney, for \$49,000.

#### Death of an Inventor.

Springfield, Mass., Oct. 15.—George Wilson Phillips, aged 70 years, who invented most of the machinery which was used in the first match factory in this country, died here Friday.

### AN OCTOBER BLIZZARD.

Snow Falls on the Earliest Date for Twenty-Five Years in Several Western States.

Kansas City, Mo., Oct. 18.—The earliest winter storm in the southwest in 25 years and the worst early storm on record has almost completely shut Kansas City off from wire communication.

Lawrence, Kan., Oct. 18.—From daybreak to three o'clock yesterday afternoon communication with the outside world was impossible as a result of the storm. Chancellor Snow, at the state university, reports it the earliest winter storm in 25 years and the worst early storm on record.

Lincoln, Neb., Oct. 18.—Snow fell steadily throughout Nebraska during last night, with an increasing gale blowing and lower temperature.

Des Moines, Ia., Oct. 18.—The first snow in this city this year fell yesterday morning for a few moments.

### MAY YET GIVE TROUBLE.

Having Learned Many Things Since Protocol Was Signed, Spain May Fight to Retain Cuba.

Washington, Oct. 18.—Information has reached the war department that a high officer of the Spanish army very recently made the statement that had the Spaniards been aware of the condition of the American army, its inability to withstand the hardships of a campaign, its lack of medical and other supplies and general inefficiency, as told in the American papers, the Spaniards would not have given up, but would have continued the fighting for a long time to come, fully believing that they would have been able to prevent the capture of Cuba by American arms. This statement is known to have been made to the American officers now in Cuba and causes some uneasiness in official circles, as it yet may mean that the Spaniards are not yet ready to yield the island under the terms of the protocol.

It is believed by officials in Washing-

### NO ROOM FOR DOUBT.

Spain Has No Excuse for a Misconstruction of the Position of Uncle Sam.

Paris, Oct. 19.—Spain can no longer have any doubt regarding the ultimate attitude of the United States toward the so-called Cuban debt. The American commissioners have declined to assume it, or any part of it, by express treaty or by contract. They also declined to accept a cession of sovereignty to the United States, for in that case Spain would claim that such a cession by its own force would impose the obligation for that debt. It is confidently believed that in refusing to accept a cession of sovereignty the American commissioners are acting also upon their announcement to the world in the intervention resolutions disclaiming any intention to exercise sovereignty or authority over Cuba except for pacification, and then to leave the island to the control of its people and its people to the assumption of its obligations. This position of the commissioners couples itself with the declaration in the resolution that the people of Cuba are by right and ought to be free and independent, and good faith requires the performance of this declaration, it being plain that if Cuba were annexed to the United States, while she might be free, she would not be independent.

### FOUGHT ON THE ROOF.

Desperate Battle Between Two Boston Laborers Results in the Death of Both.

Boston, Oct. 19.—Two roofers, Patrick Rosch, 45 years old, and John C. Rice, aged 30, while employed in repairing the roof of a four-story house on Hudson street, became engaged in a quarrel Tuesday afternoon, and people below saw them struggling on the roof. The men drew gradually near the edge, and then, to the horror of the spectators, the two rolled over and fell 50 feet to the ground. Both were terribly injured and died a few hours later at the Emergency hospital, while the surgeons were working over them. The cause of the quarrel is unknown, but it is supposed it resulted from a little dispute about the work.

### Conference of Religions.

Omaha, Neb., Oct. 19.—The liberal congress of religions opened Tuesday evening at the First Congregational church with a very large attendance. The addresses of welcome were made by Thomas Kilpatrick, of Omaha, and Hon. W. G. Whitmore, of Valley, Neb. Dr. H. W. Thomas, of Chicago, president of the congress, briefly responded to the addresses and introduced Rabbi E. G. Hirsch, of Chicago, who delivered the opening sermon. Rabbi Hirsch reviewed the various phases of the evolution of the liberal idea in religion. He traced the toleration of the eighteenth century through the criticism of the nineteenth, up to the humanitarianism of the twentieth. The liberalism of to-day is not iconoclastic, but embraces men because they are Jews and because they are Gentiles.

### Soldiers in a Saloon Fight.

Newport News, Va., Oct. 19.—A riot occurred at a saloon in Phoebus Tuesday night. Five regulars from Fort Monroe were shot, one being killed and another mortally wounded. No civilians were hurt. It is understood that the men were shot by the proprietor or employees of the saloon, which is owned by P. F. Eagan. After the shooting soldiers set fire to the saloon. At midnight the town was in a turmoil, the civil authorities being powerless to preserve order. Later the rioters were arrested.

### Tortured by Robbers.

Dubuque, Ia., Oct. 19.—A report comes from Cascade, Dubuque county, that Bartley and Thomas Murphy were terribly tortured by robbers in an effort to make them reveal the hiding place of money. The story is that the flesh was almost burned from their feet, they were stabbed with sharp-pointed sticks and dragged about the house. The robbers were masked. There is no clew. The Murphys did not give up the secret.

### Gathering Evidence.

Springfield, Ill., Oct. 19.—Certificates of the election and inauguration of Gov. Tanner were obtained of the secretary of state Tuesday by a representative of the Chicago-Virden Coal company, and it is supposed they will be used in injunction proceedings against Gov. Tanner for his interference with the unloading of negro miners at Virden.

### Tobacco Combine Off.

New York, Oct. 19.—The much-talked-of combination of the plug tobacco manufacturers of the country under the protection of the American Tobacco company is off. The Continental Tobacco company, which was to take over the unprofitable plug tobacco factories of the trust and harmonize the trade, will not be formed.

### May Be Punished.

Washington, Oct. 19.—Lieut. Col. O'Brien Moore, of the Second West Virginia volunteers, is slated for considerable trouble before he hears the last of the spread-eagle punishment which under his orders was inflicted upon several members of his regiment at Camp Meade, Pennsylvania.

### Cooperative Plan in Cooking.

Nine families in Burton, Kan., have their cooking done on the cooperative plan, and thus insure a great variety of food at a less cost and avoid the worry of directing and paying servant girls.

### Germany Leads in Electric Roads.

Germany has more electric street railways than any other European country. Next in order come France, England, Italy, Switzerland, Spain and Belgium.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HOLLAND ENDORSEMENTS IS WHAT COUNTS WITH THE HOLLAND PUBLIC

You can't fool the public all the time. They will find you out at last. Every time a man is fooled. Another skeptic is made. Many the remedy that makes the skeptic.

It fails to keep its promise. Doan's Kidney Pills bring renewed faith. They cure the skeptic. Plenty of proof of this at home. Holland proof for Holland people. Gur citizens say they cure headache. Cure urinary disorders. Cure sick kidneys. Experience has taught them this is so.

Conviction for every sufferer. In the testimony of friends and neighbors.

Read this case: Mr. Garret Kopenga, living five miles so. east of Holland, Farmer, says: "I have been subject more or less all my life to attacks of kidney pains and backache. If I caught cold or strained myself from doing any unusually heavy work I was sure to be laid up for a time. The attacks came on at intervals and were very severe so that it was almost impossible for me to bend over and if I had a stooped position I could scarcely straighten up again. I tried a great many different remedies and wore plaster after plaster but could get nothing to remove the trouble until I saw Doan's Kidney Pills highly recommended and went to J. O. Doesburg's drug store in Holland and procured them. My back was troubling me severely at that time but it required only a few days treatment to relieve me and in a short time the aches and pains were entirely removed, and I have had no return of them since."

## Mortgage Sale.

DEFAULT HAVING BEEN MADE IN THE conditions of payment of a certain mortgage made and executed by Pieter Oosting and Francena Oosting his wife, of the city of Holland, county of Ottawa and state of Michigan, parties of the first part, to the Ottawa County Building & Loan Association of Holland, Michigan, a corporation, party of the second part dated the 5th day of October, A. D. 1895 and recorded in the office of the Register of Deeds of Ottawa county, Michigan, on the 10th day of October, A. D. 1895, in Liber 47 of Mortgages on page 370, on which mortgage there is claimed to be due at the time of this notice the sum of Five Hundred Eighty-nine and 81-100 dollars (\$589.81), based on an attorney fee of Twenty-five dollars (\$25.00) provided for by law; and no suit or proceedings having been instituted at law or in equity to recover the debt secured by said mortgage or any part of it, and the whole of the principal sum of said mortgage together with all arrearages of interest thereon having become due and payable by reason of default in the payment of interest and installments of principal and fines imposed according to the by-laws of said Association on said mortgage on the days when the same became due and payable, and the non-payment of such interest, installments and fines being in default for the space of more than six months after the same became due and payable; wherefore under the conditions of the said mortgage the whole amount of the principal sum of said mortgage with all arrearages of interest thereon at the option of the said party of the second part became due and payable immediately thereafter; and the said Ottawa County Building & Loan Association of Holland, Michigan, hereby declares its election and option to consider the whole amount of said principal sum of said mortgage due and payable.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and the statute in such cases made and provided, said mortgage will be foreclosed by sale at public vendue of the mortgaged premises, or so much thereof as may be necessary to pay the amount due on said mortgage with said costs of foreclosure and sale including said attorney fee of Twenty-five dollars (\$25.00). Said sale to take place at the north outer door of the Ottawa County Court House in the city of Grand Haven, Ottawa county, Michigan (that being the place where the circuit court for the county of Ottawa is held), on Monday, the Fourteenth day of November, A. D. 1895, at ten o'clock in the forenoon of said day. The said mortgaged premises to be sold being described in said mortgage as follows: All that certain piece or parcel of land situated and being in the city of Holland, county of Ottawa and state of Michigan, and described as follows, to wit: Lots numbered three (3), four (4), and fifteen (15) in block numbered eight (8) in the south west addition to said city, except a part of lot three (3) described and bounded as follows: commencing at the north east corner of said lot three (3), thence south on the east line of said lot, ninety (90) feet; thence west twelve (12) feet; thence north ninety (90) feet to the north line of said lot; thence east twelve (12) feet to the place of beginning, according to the recorded plat of said city.

Dated Holland, Aug. 13, 1895.

## UNDER A NEW FLAG.

Citizens of Puerto Rico Gratified at Changed Conditions.

## HOISTING OF THE FLAG IN PONCE.

The Alcaldé Speaks for His People—Last Page of Spanish History in the Island Is Written—Ceremony in San Juan.

Ponce, Puerto Rico, Oct. 19.—Tuesday's celebrations in connection with the formal surrender of the island of Puerto Rico were, as had been expected, most enthusiastic. After the parade the bands and various trade organizations went to Gen. Henry's headquarters to be introduced to him. Gen. Henry, in the course of a brief speech, said:

"Alcaldé and Citizens: To-day the flag of the United States floats as an emblem of undisputed authority over the island of Puerto Rico, giving promise of protection of life, of liberty, prosperity and the right to worship God in accordance with the dictates of conscience. The 45 states represented by the stars emblazoned on the blue field of that flag unite in vouchsafing to you prosperity and protection as citizens of the American union. Your future destiny rests largely with yourselves. Respect the rights of each other. Do not abuse the government which accords opportunities to the individual for advancement. Political animosities must be forgotten in unity and in the recognition of common interests. I congratulate you all in beginning your public life under new auspices, free from governmental oppression and with liberty to advance your own country's interests by your united efforts."

The alcaldé replied in part as follows: "To-day destiny has written the last page of Spanish dominion in Puerto Rico and the prologue to the entrance of the noble American republic, whose flag is a sign of a new era. We hope to see another star symbolic of our prosperity and our membership of the great republic of states. Puerto Rico has not accepted American dominion on account of force. Therefore we came willingly and freely, hoping, hand in hand, with the greatest of all republics, to advance in civilization and progress, and to become part of the republic to which we pledge our faith forever."

## No Disorder.

San Juan, de Puerto Rico, Oct. 19.—Promptly at noon Tuesday the American flag was raised over San Juan. The ceremony was quiet and dignified, unmarred by disorder of any kind. The Eleventh regular infantry with two batteries of the Fifth artillery landed Tuesday morning. The latter proceeded to the forts, while the infantry lined up on the docks. It was a holiday for San Juan, and there were many people in the streets. Rear Admiral Schley and Gen. Gordon, accompanied by their staffs, proceeded to the palace in carriages. The Eleventh infantry regiment and band, with troop H, of the Sixth United States cavalry, then marched through the streets and formed in the square opposite the palace.

## Old Glory Unfurled.

At 11:40 a. m. Gen. Brooke, Admiral Schley and Gen. Gordon, the United States evacuation commissioners, came out of the palace with many naval officers and formed on the right side of the square. The streets behind the soldiers were thronged with townspeople, who stood waiting in dead silence. At last the city clock struck the hour of 12 and the crowds, almost breathless and with eyes fixed upon the flagpole, watched for developments. At the sound of the first gun from Fort Morro, Maj. Dean and Lieut. Castle, of Gen. Brooke's staff, hoisted the stars and stripes, while the band played the "Star Spangled Banner." All heads were bared and the crowds cheered. Fort Morro, Fort San Cristobal and the United States revenue cutter Manning, lying in the harbor, fired 21 guns each.

Senor Munoz Rivera, who was president of the recent autonomist council of secretaries, and other officials of the late insular government, were present at the proceedings. Congratulations and handshaking among the American officers followed. Ensign King hoisted the stars and stripes of the intendencia, but all other flags on the various public buildings were hoisted by military officers. Simultaneously with the raising of the flag over the captain-general's palace, many others were hoisted in different parts of the city.

The work of the United States evacuation commissioner is now over and all the reports will be forwarded to Washington on Thursday next. The labors of both parties have terminated with honors for all concerned. The American commissioners worked without the least delay and in the most thorough and effective manner.

## Political Future of the People.

Washington, Oct. 19.—In view of the fact that at noon Tuesday, with the acquisition of Puerto Rico by the United States, about 800,000 inhabitants of that island lost their Spanish citizenship, the question as to what shall become of these people politically becomes of importance. Madrid advices report that leading citizens in Puerto Rico have already taken steps to become naturalized as United States citizens. This is an error, for existing law provided no way in which this change of citizenship can be effected by the residents of the island. There is no United States court there before which a declaration of intention can be filed, and in fact, no machinery at all which can be put in motion to change citizenship. Inquiry into this subject at the state department discloses the fact that it has been usual to provide for a bodily transfer of the citizenship of people conditioned as those in Puerto Rico in the treaty of peace which terminates a war. It may be prudent for the commission at Paris to avoid any reference to Puerto Rico again, in which case congress will be called upon by the president to confer citizenship upon the Puerto Ricans in the same act as that which must be passed to provide a stable form of govern-

ment for the island. Should either of these courses be found impracticable, however, it is said at the department that international law in its operation would confer American citizenship upon these Puerto Ricans, the general principle being that where a treaty of cession is silent upon the subject of citizenship it changes with the soil. In the case of the acquisition of New Mexico the residents of the territory were given American citizenship by specific provision of the treaty.

## Treatment of Mexican Prisoners.

The term of a prisoner in Mexico is divided into three periods. The first is occupied with penal labor, the second is spent in the training school, with small pay, and the third is preparatory to freedom, with paid work and many privileges.

# Saved From Death.

LIFE WAS EBBING AWAY WHILE IN THE MOUNTAINS.

A Woman was Rescued when in a Perilous Plight.  
 The Novel Method Used to Save Her.

From the Press, Ottumwa, Iowa.

Miss Lola Noble, of 418 East Maine Street, Ottumwa, Iowa, daughter of Mr. E. M. Noble, the shirt manufacturer, has accomplished a work which will not only benefit her, but undoubtedly be of service in many others. It was a praiseworthy undertaking; one which she may feel proud of and amply repaid for her indefatigable efforts.

A reporter of the Press hearing of her successful achievement sought an interview with her.

Miss Noble seemed cheerful, hopeful and in the best of health. Apparently she had not suffered any ill effects from her efforts which were reported to have done much good.

About two years ago she accompanied her parents to the west, and resided among the mountains for several months. This was done in the hopes that her health might be improved, as she was suffering from anemia. Instead of the change of climate benefiting her, she rapidly became worse and her parents hastily returned east with her.

Reputable physicians were summoned and exercised their skill, but it was of no avail. Her condition became worse and her face assumed a ghost-like appearance. She was wasting away for want of blood, and what little she did have, was watery and in a depraved state. Any slight exertion caused excessive fatigue, and palpitation of the heart. She had no appetite and the faintest viands did not tempt her. Her condition was deplorable and death seemed nigh. Many of her friends thought she was going into consumption.

Finally some friends advised her to try Dr. Williams' Pink Pills for Pale People, prepared by the Dr. Williams' Medicine

Company, Schenectady, N. Y., as they contained in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They had learned of cases similar to hers which had been cured. The pills, they said, were inexpensive, only costing 50 cents a box or six boxes for \$2.50, and could be had at any druggist's.

Miss Noble was reluctant to try them, for it seemed as if all possible remedies had been tried and the expense had been considerable, without being benefited. Her friends were so enthusiastic regarding the good qualities of the pills, that she finally decided to try a box, and purchased one from E. M. B. Scott's drug store.

A decided improvement was noticeable after the pills had been taken and she purchased some more. The change in her condition was so great that after taking four boxes of the remedy, she considered herself well, and stopped taking the medicine. But her severe sickness could not be cured so soon and she was obliged to commence taking the pills again. After using a few more boxes, all traces of her fearful disease had disappeared. To-day, she is the picture of health, her complexion being that of an ideally healthy young lady, and she is as active as in her younger days.

Her father was so much impressed with the marvelous improvement wrought in the health of his daughter through the merits of Dr. Williams' Pink Pills, that he too is using them and is rapidly regaining his failing health.

Several have heard of Miss Noble's case and experience with these wonderful pills and are using them with satisfactory results.
